Due to high humidity and/or coastal conditions, dwellings in the Pacific Northwest display an increased possibility of developing mold and mildew. Mold and mildew are found virtually everywhere in our environment (indoors, outdoors, and in both new and old structures), and cannot be eliminated. Also, there is conflicting scientific evidence as to the amount of mold and mildew that can lead to adverse health consequences. However, leading causes of indoor mold and mildew growth (such as excess moisture) can often be eliminated by undertaking appropriate precautions. Therefore, Resident agrees to all of the following statements, terms and conditions in entering into his/her Rental Agreement.

Acknowledgement of Risk: Resident acknowledges that mold and mildew risks exist and assumes responsibility for any personal injuries or property damage caused by mold or mildew.

Notice of Problems: Resident shall immediately notify Landlord of any moisture, standing water or water intrusion of any kind, or mold conditions in order to provide Landlord an opportunity to evaluate the conditions and/or to make recommendations regarding appropriate actions. Failure of the Resident to comply with this section may lead to termination of tenancy or liability for increased costs of repairs.
